Prof. Dr. Omar Maaiteh**

**Cisco IT Training in VTC Center in Mutah University**

**Best Practices in Networking in VTC Center**

Routing and Switching is the first step in helping students prepare for a career in networking. Pursuing this Training will help improve students skill sets, and provide you with ability to manage and optimize network systems. Routing and Switching focuses on network infrastructure, mainly routing and switching, but it also includes wireless access, security, and connectivity to branch offices using WAN.

**Title of the training course: Cisco IT Training**

**Date : 28.02.2017**

**Place: VTC Office –Mutha University**

**Number of Paticipants: 22**

### Cisco Training in VTC Mutah

### Cisco Training in VTC Mutah

### **Conclusion:**

The training was very much essential participants. It is also a great opportunity to acquire practical knowledge. During the training students acquired lots of experience in IT Routing, Switching, Security and Network management. This will help participants to clarify their theory knowledge. In the future VTC office will prepare more training courses for students and teachers.
